Aspiring web

As a recent high school graduate with a keen interest in web development, I am excited to begin my career in this field. With a solid foundation in HTML, CSS, and JavaScript, as well as experience in web design and development, I am confident in my ability to contribute to best team.

I am excited about the opportunity to bring my skills and enthusiasm to any organization and contribute to success as a web developer.

ACHIEVEMENTS

-  **Inter school best project (+2)computer**
we were able to win this award from my college because of best Ui/UX and user friendly commercial website.
-  **Build Responsive Real-World Websites with HTML and CSS**
It is the course that I have completed to explore more knowledge about font-end web development. It was such a lovely course which I have ever done due to which I am able to get ideas about responsive as well as simple font-end design which is required for websites.

TRAINING/CERTIFICATIONS

-  **Udemy- font end developer completion**
Udemy, inc / 2022
I have joined this course with the best tutor name "Jonas Schmedtmann" who gives good knowledge and professional ideas regarding the websites and their backend property.
-  **Code with mosh- Ultimate HTML,CSS,Javascript completion**
code with mosh / 2022
For my extra skill i have finished the course with programming with mosh which is one of the best tutor over internet. i have done some of the project and besides that i have done my own project related this field and other team from discord and many social media group from facebook and help the beginner and learner to figure it out the line of code where there is some error and teach how to tackle them.. As like always working with code is soo great hobby for me

PROJECTS

Education Hub

It was my high school project as a computer science student. My team and I designed the website, which contains educational materials for students from secondary to high school with good notes and past question collection. It was my biggest starting project as an aspiring web developer.

Personal website

This is my project on my own. i have created my own website which content all my information. The code is ready and still i'm updating the code and soon i'm going to host and upload beautiful content and course related video for the people.
